SUMMARY

Enthusiastic entry-level web developer with a vocational school coding background. Proficient in React, Tailwind CSS and Python for Machine Learning. Experienced in developing responsive, user-friendly websites through hands-on projects. Eager to leverage my skills and passion to contribute to a dynamic team and grow in the industry.

EDUCATION

Rekayasa Perangkat Lunak
SMKN 4 KOTA TANGERANG

June 2021 - July 2024

Informatika
Universitas Multimedia Nusantara

Aug 2024 - Present

FIELD WORK INTERNSHIP

PT Anugrah Energi Indonesia

June 2023 - Oct 2023

Fronted Developer

- Acquired Tailwind & Laravel experience by learning new things
- Expanded front-end development expertise by proactively learning and implementing Tailwind CSS and Laravel frameworks to build responsive and efficient web applications.

ORGANIZATION /COMITEE

DUTA ANTI NARKOBA

December - Present

Coordinator of the Website Division

- Led and organized a web development team, assigning responsibilities for key pages such as "About Us" and "Events" to ensure efficient workflow and clear ownership.
- Set up and maintained a collaborative GitHub repository, managing branches and pull requests to streamline team contributions and version control.
- Mentored team members in Tailwind CSS and React, providing guidance and hands-on support to enhance their frontend development skills.

STARLIGHT

October 2024 - Present

Member of the Website Division

- Took charge of managing the division and was responsible for onboarding new members (referred to as Mini Gerda), ensuring a smooth integration into the team.
- Developed an interactive circular carousel with modal functionality, contributing to the organization's digital presence and improving user experience.
- Strengthened collaboration and communication skills through active participation in a team-based workflow and cross-functional discussions.

SELF PROJECT

Fiverr & Riot Replica Project

- Successfully cloned the Fiverr landing page using Tailwind CSS and React, achieving a responsive and pixel-perfect design that closely mirrors the original.
- Recreated the Riot landing page with Tailwind CSS and React, ensuring seamless user interaction and maintaining consistent design elements across different screen sizes.

Business Identity Site

- Developed a responsive business identity site using Tailwind CSS and Laravel, ensuring a modern and professional online presence that aligns with the brand identity.
- Integrated dynamic content management features in the business identity site, leveraging Laravel’s server-side capabilities to allow easy updates and scalability.

Comprehensive Library Borrowing & Returning System

- Enhanced both front-end and back-end development skills by actively learning and applying Bootstrap and PHP, leading to the creation of dynamic and responsive web applications.
- Developed a fully functional library system enabling efficient borrowing and returning of books, streamlining the management of library resources and enhancing user experience.

CERTIFICATE

SKILLS COMPETENCY TEST	March 2024
Digital Library Application (Competent)
